

AppLabs.nl

AppLabs is an "Off-Site" Application Management Solution. From application packaging to version management and user acceptance testing & deployment. AppLabs can be used as a valuable addition to your new or existing application management environment. On demand, at your convenience. Fast, Web / Cloud Based, quality assured and user friendly.

By using crystallized, efficient processes and techniques, we are able to analyze, classify and deliver the requested software packages quickly. This way we can work cost effective and guarantee high quality application packages. AppLabs integrates seamlessly with your local application management and deployment environment. You decide what software packages you want outsourced, maybe a batch of easy & fast packages, or just the difficult ones that take much time and resources. Or maybe all applications, saving on resources, tooling and licenses all together.

We are sure AppLabs is a valuable addition to your application management, therefore we can offer this solution as no-cure-no-pay proposition.

OFF SITE

Your AppLabs application packages are developed in the AppLabs Packagefactory at AIMED Solutions. Customers do not need to invest in knowledge, licenses, workspace, hardware and FTEs. From the 1st day you are already productive without any prior investments!

EXPERIENCED

AppLabs is staffed by experienced, knowledgeable and certified packagers based in our headquarters in 's-Hertogenbosch (NL). AIMED has over 20 years of experience in application packaging and is a certified partner packaging software vendors. With a Dutch & English speaking helpdesk. High quality packages are delivered with guaranteed functionality and approved by Microsoft standards. This precious, valuable technology, which previously was only available to large enterprises is now also within reach of SMEs.

QUALITY

We make no distinction in pricing, difficulty or quality levels. All packages undergo extensive technical and functional testing, validation, analysis and a acceptance phase.

FIXED PRICE

AppLabs is offered at a fixed price, so you know in advance exactly where you stand and what to expect.
